

AMENDMENTS TO ABSTRACT

Please amend the abstract of the disclosure, as follows:

A housing for protecting a flat panel display ~~and/or a backlight module~~ includes a rear blade, a front blade, and a side blade. the side blade is integrated with and sandwiched between the front blade and the rear blade to form a linear frame having a cross-section in a shape of a "Π", and the linear frame is allowed to fold to surround the partial or the whole edge of ~~said~~ the flat panel display ~~and/or backlight module~~.
